

GRAYS TUITION CENTRE | REOPENING – 2020

COVID – PREVENTING TRANSMISSION

Grays Tuition Centre is committed to ensuring that the premises are safe for students and staff. We are taking clear actions to reduce the transmission of Coronavirus. Under the guidelines provided by the government, we have decided to implement the following measures.

Alongside the existing modifications (one-way system, sanitisation equipment, face-coverings and student drop-off outside) we are improving the premises further.

Please read **what we are doing** at the Centre and **what steps you can take** to help us on this journey.

What we are doing:

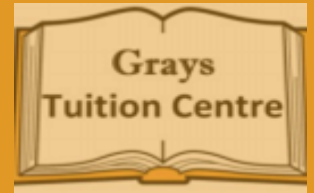

- **Maintaining** small groups of approximately 4 students per tutor
- **Only one** class per room
- Students will be allocated to **same group** whenever possible to prevent mixing of students
- **Sanitisation stations** and **Good Ventilation** in all rooms
- **All tutors** are asked to wear face masks

- **Social distancing** to be maintained at all times
- New **“Bubble system”** which will keep students of same year group consistently together
- **Regular symptom checks** for students and staff
- **Enhanced cleaning measures** at the Centre whereby surfaces and toilets will be disinfected or bleached

What steps you should take:

By working together we can prevent transmission. Here are a few things that you should be mindful and aware of:

- Keep a **regular check of symptoms** and keep us informed
- Inform us if your child has an **existing health condition** that may increase their vulnerability
- Although toilets facilities are open, we **recommend** that students only use them in emergency
- **Make sure your child** is fully equipped with a face mask, water bottle and stationery
- Make sure your child stays at home if they are **feeling ill**
- Face Mask is **mandatory** for all secondary students

- ▶ We are consistently monitoring the guidelines provided by the **Department of Education**. Therefore, we will ensure that significant changes are made accordingly.

- ▶ If you have any concerns **please don't hesitate** to contact us to discuss this further.

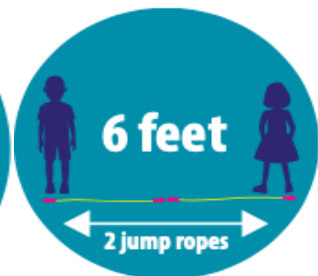

Wash your hands often

Wear a mask

Cover your coughs and sneezes

Keep **6 feet** of space between you and your friends

"Follow these simple steps... as precaution is always better."
